Summary

3D/2D Playable Ads Developer with a solid background in motion design, specializing in full-stack interactive ad production using **Cocos Creator** and **TypeScript**.

AI tools to speed up development while applying **SOLID principles** to design independent project architecture, significantly reducing debugging time. My motion design background allows me to handle asset preparation, scene assembly, and optimize audio, textures, and sprites to meet strict build size limits (< 5 MB). Delivering ready-to-deploy builds for all major ad networks, including **Facebook, AppLovin, Unity, Moloco, Mintegral, etc.**

Skills

Cocos Creator | TypeScript | Unity | After Effects | Photoshop | Figma | Spine |
Ai (Claude/Gemini) | Git/GitHub | Blender

Professional Experience

- 02/2026 – Present **Playable Ads Developer, Overcome Team**
- Developed 3D/2D playables for mobile games (idle, tycoon, match-2/3, puzzles).
 - Deployed and optimized builds for major ad platforms (AppLovin, Mintegral, Meta, Moloco, etc.).
 - Worked with physics (box collisions), particle systems, spine animations, exporting assets from Unity projects
 - Optimized audio, textures, sprites to meet build size limits (< 5 mb).
 - Built flexible, responsive layouts for portrait/landscape, phones/tablets
- Stack:** Cocos Creator, Typescript, Gemini, Claude, Blender, Spine, After Effects, Photoshop, Unity, Figma
- 03/2025 – 01/2026 **Playable ads Developer, Traffy** 
- Developed iGaming playables (wheel of Fortune, slots, scratch cards, quizzes).
 - Handled full-cycle production from asset adaptation and scripting to final build deployment.
- Key Achievement:** Optimized the localization pipeline, cutting project reskin time to 4–5 hours.
- Stack:** Cocos Creator, Typescript, After Effects, Photoshop
- 03/2023 – 02/2025 **Motion Designer, Traffy** 
- Produced CTA-creatives for IGaming
 - Specialized in particle effects, keying, tracking, UGC content, Ai generations, Newtone
 - Handled full asset preparation for motion videos
- Stack:** After Effects, Photoshop, Premier Pro, Topaz, Kling etc
- 02/2021 – 02/2023 **Motion Designer, Game Garden** 
- Produced CTA-creatives for mobile game advertising.
 - Specialized in character animation and dynamic particle effects.
- Stack:** Spine, Photoshop, After Effects.
